ENYI GLORIA
FRONT-END WEB DEVELOPER

Lagos, Nigeria
(+234)707-401-8188 | nkemaconam@gmail.com | Portfolio | Github

---

PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience building responsive, mobile-first user interfaces using React.js, TypeScript, and Tailwind CSS. Skilled in translating UI/UX designs from Figma into functional components, integrating APIs, and writing clean modular code. Strong understanding of frontend architecture, version control, state management, and performance optimization. Passionate about learning, collaboration, and contributing to scalable digital products.

CORE TECHNOLOGIES

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js

State Management: Redux Toolkit, React Query

APIs: REST API Integration

Tools: Git, GitHub, Figma

PROFESSIONAL EXPERIENCE

Front-End Web Developer

Office of the CEO, LW INC.
March 2024 – September 2025

- Designed, developed, and maintained a responsive and interactive website for the Institute - ISLT where lectures were carried out and exams were being held.
- Optimized the website for performance, SEO, and improved user engagement, which saw an overall increase of 80% in the Institute's activities.
- Integrated front-end components with back-end services and APIs for seamless functionality.
- Collaborated with stakeholders to implement new features and UX improvements.

Full-Stack Software Developer

Chuuse Inc.
June 2022 – February 2024

- Developed and maintained a responsive and interactive venture studio website for a client.
- Led a team of developers in the development of a client's real estate website, focusing on performance, security, and scalability.
- Managed software maintenance for various websites, handling 3 websites simultaneously; carried out troubleshooting and feature updates for enhanced functionality.
- Designed visually appealing and responsive web interfaces, enhancing user experience.

PROJECTS

- EDUCATIONAL PLATFORM FOR MENTEES – Collaborated in the development of an educational platform using Laravel, HTML and CSS to facilitate access to educational resources, increasing student engagement by 80%.
- E-COMMERCE WEBSITE FOR THE RESALE OF FIRE DEBRIS – Developed an online platform using HTML, CSS, JavaScript, PHP, and MySQL to facilitate nationwide resale of fire debris. Included an admin panel, live search filtering, and secure login.
- AI CHATBOT WITH NLP – Built a chatbot using HTML, CSS, and Javascript, incorporating GPT-3.5 for natural language processing.
- METAVERSE - A branded website with light/dark modes available; developed using React and TailwindCSS. Includes smooth scrolling and responsive design.
- More projects developed can be found here: My Portfolio

EDUCATION

University of Benin
Bachelor of Engineering (BEng) in Computer Engineering
January 2017 – September 2023
Relevant Coursework: Front-End Web Development, User Interface & Experience (UI/UX), Machine Learning, Cloud Computing
